

# Nika Khachashvili

## SOFTWARE ENGINEER / AWS CERTIFIED

Tbilisi, Georgia

☎ (+995) 598-94-94-40 | ✉ n.khachashvili1@gmail.com | 🏠 nikakhachi.com | in nika-khachashvili

## Experience

---

### Full Stack Software Engineer

*Riwers (Apr 2022 - Present)*

- Did investigations on existing software's vulnerabilities and provided security implementations. Including OWASP 10
- Built an admin panel for managing all the dynamic and static content, and manager panel for monitoring user activity and history on the large website with lots of users.
- Improved user experience and performance of apps from code to cloud infrastructure level.

### Full Stack Software Engineer

*Pulsar AI (May 2021 - Jun 2022)*

- Worked on multiple software projects with a team and participated in the whole software development process from architectural design to implementation and delivery.
- Developed and implemented tools that increased the level of automation and efficiency of an application.

### React Developer

*Aidnet • Software Development (Mar 2021 - Aug 2021)*

- Worked with product managers to re-architect and design front-end architecture.
- Tested and provided project updates and offered recommendations for design.

## Projects (Portfolio)

---

### Traffic Analytics

STACK: AWS, React, NodeJS, PostgreSQL, Prisma, DynamoDB, Python

- Tbilisi City Hall project, which provides statistics for traffic streams between the districts, camera loads on specific date-time, average velocities between the city's two points, etc. All of this comes with an extra feature which visualization on a map.

### Salescoach

STACK: AWS, React, ThreeJS, NodeJS, PostgreSQL, Prisma

- Designed for quick onboarding and teaching new salespersons how to sell by displaying them different topics of sales in a pre-recorded format that is read by an avatar. Trainees can submit their recordings and arguments on the topic. Afterward, the mentor can let them pass or decline them and give them a feedback. The topics are controlled and updated from an admin panel.
